### Summary

This engineer-in-training position assists in the preparation of engineering design and documents for steel framed and reinforced concrete buildings and structures, petroleum storage tanks, foundations, supports for industrial equipment and piping systems, and inspection and evaluation fuel storage tanks. This position works under general supervision of a lead engineer or project managers. The successful candidate will be a self-motivated, energetic team player, who enjoys working closely with the military and traveling to locations across the globe in addition to meeting the following requirements.

### Qualifications

- U.S. Citizen, with the ability to obtain a military security clearance
- Bachelor's Degree in Civil Engineering, emphasis in structural engineering
- Minimum of one (1) years' experience in structural engineering (internship experience may be applicable)
- Have successfully passed the Engineer in Training (EIT) Exam and working towards Professional licensure
- Ability to obtain US Military Security Clearance for executive order and government contracts
- Ability and desire to travel periodically to project locations, domestic and international
- Proficient written and verbal communication skills

### Preferred Skills/Abilities

- Knowledge in the following areas:
  - Plans and technical specifications for construction
  - Petroleum fuel storage tanks design, evaluation, and repair
  - Reinforced concrete design, structural steel design, and pre-engineered metal buildings
  - API 650 and API 653
- Experience using AutoCAD, RISA, and Enercalc software
- Safety Training certifications (First-Aid, OSHA, EM-385, etc.) is preferred

### Physical Requirements

- Travel to project sites up to 25% of the time, domestic and international. Ability to travel independently is a requirement.
- Must be able to lift or move up to 50 lbs.
- Must be able to sit or stand for sustained period of time
- Must be able to ascend or descend ladders, stairs, scaffolding, ramps, poles and the like
- Must be able to walk, stand, crouch on uneven surfaces
